

Dr. Mathias Adamu, MIET, FCCFI, ΩΝΛ

Economic Development | Infrastructure Finance | Energy Strategy | PPP & Investment Advisory | Applied Agentic AI

Dr. Mathias Adamu is an accomplished executive and strategic adviser with over a decade of experience spanning economic development, energy strategy, infrastructure investment, public-private partnerships (PPPs), regulatory reform, and institutional transformation. He has played significant roles in advancing national energy policies, strategic infrastructure initiatives, and investment programmes involving projects and assets valued at over **US$1 billion**.

He holds a **Doctor of Business Administration** and is a **Harvard–trained economic development specialist**, with executive education in economic growth, infrastructure finance, regulation, and leadership. He has also undertaken advanced executive training at the **Massachusetts Institute of Technology (MIT)** in Applied Agentic AI for Organizational Transformation, combining expertise in economic policy and investment strategy with emerging technological capabilities.

His multidisciplinary expertise bridges **economic development, infrastructure finance, energy policy, strategic investment, and AI-enabled organizational transformation**, positioning him to contribute to sustainable economic growth, institutional excellence, investment competitiveness, and national transformation.
